SUMMARY

I am a final-year BCA student with hands-on knowledge of C,C++, Java, and SQL. I have a keen interest in software development and programming and am currently seeking an internship opportunity to apply my skills in real-world projects. My strength lies in clear communication, logical thinking, and solving complex problems effectively. I am a fast learner and always excited to grow in the tech world.
I am looking forward to working with a forward-thinking organization where I can contribute and learn.
